## Peterson's Secrets to a Great Lawn Fall is the best time to rejuvenate your lawn.

Fertilizing your lawn, garden, & pasture in early fall helps build stronger roots for winter & provides a thicker, greener lawn next spring. Getting those fallen leaves off the ground allows you to avoid problems with acidic soil which can cause brown spots. Grandpa always says, "It's easier to sweep than to rake," & Peterson's carries a wide assortment of Agri-Fab lawn sweepers & fertilizer spreaders. Early fall temperatures & moist conditions lead to better lawn seed germination and gives you more options for weed control in the spring.

**Tuesday, Aug. 7th • 6:30 p.m.** Fall Lawn Seminar

**Tuesday, Aug. 7th • 7:30 p.m.** Fall Pasture Management Seminar

Please pre-register for either seminar at Peterson's Country Mill or email us at [info@pnbmill.com](mailto:info@pnbmill.com). Sessions \$10 each. Space is limited. Participants that have pre-registered will receive a free soil test valued at \$13.95. Please bring approximately 3 cups of soil.
