**Nutrition to Support Muscle  
& Skeleton Growth**

Your puppy only gets one chance to form the skeleton & muscles that will support him for the rest of his life. Exclusive® Chicken & Rice Puppy Formula gives a puppy the extra nutrition he needs during that critical first year of rapid growth.

**Bunnies**

Rabbits are creatures of habit and they usually eat at the same time each day. To help prevent obesity and avoid overfeeding, it is recommended that you provide an adequate amount of feed at the same time each day.

**6 Tips to Pet Friendly Travel**

- Before traveling, make sure your pet is comfortable being kenneled in an airline approved kennel.
- All non-service animals must be kept kenneled while in the airport.
- Bring a leash & collar.
- Make sure that your pet's tags are current & write your phone number on the collar.
- Take a picture of your pet. Tape one copy to the kennel & keep one with you should your pet become lost.
- Confirm your pet's reservation & that you have all proper documentation ahead of time.
