NO/NO BIRDFEEDER

It's a no nonsense feeder.

The unique No/No bird feeder is a collapsible wire basket designed to hold 2-1/2 pounds of seed. The base has drainage holes for seed freshness. This feeder will attract both clinging & perching birds! This simple wire mesh feeder requires no cleaning, rain or snow will blow right through it & keeps a healthy environment for birds. Just fill & hang.

**Peterson's Country Mill's
Fresh Bird Seed**

**Made here in North Branch – always fresh!
Directly from our mill to you at a great savings!**

Sometimes people forget that Peterson's Country Mill is a feed manufacturer & milling operation. This means that much of our raw product comes from our local farmers. Since our seed is mixed right here in North Branch, we are able to sell much below our competitors. Sunflowers & other commodities are purchased by the semi load to help keep prices down. Why buy your bird & wildlife seed at Peterson's? We have lower prices, a huge variety of merchandise, experts on hand as well as easy parking & loading.

SQUIRRELS

Squirrel Proofing to Squirrel Feeding

Squirrel feeders placed away from bird feeders help to entertain & distract squirrels. Squirrel proof feeders allow song birds to be well fed without competing with squirrels for food.

KEEP YOUR PLANTS LOOKING GREAT YEAR-ROUND WITH SUPPLIES FROM PETERSON'S COUNTRY MILL!

MAPLE SYRUP

Perfect Planting
Saturday, January 29th
Making Maple Syrup
9 a.m. - 12 p.m.

The basic process of making maple syrup is extremely simple.

All you do is boil maple tree sap down to about 1/35th of its original volume. Peterson's Country Mill carries everything you need to get started.

More seed for less with Livingston Seed.
Proven results & value since 1850.

Livingston Seed... Where your creativity & imagination grow!

BAKER CREEK HEIRLOOM SEEDS

They offer a large variety of open-pollinated seeds: pure, natural & non-GMO!

(genetically modified organisms)

Baker Creek has a nice selection of hard-to-find seeds, like these Chinese red noodle beans. "This is the most stunning & unique bean I have grown yet." Fantastic, deep red, 18" pods are so delicious & nutritious.

REPOTTING ORCHIDS IS NOT DIFFICULT

Orchids typically need to be repotted once a year. It is time to repot when you see yellowing foliage, poor moisture retention or drainage, rotting roots, poor growth or poor blooming. One of the best times to repot your orchids is right after flowering & When you see signs of new growth appearing.

 Vigorously Blooming African Violets
 9 a.m. - 12 p.m.

TAKE THE GUESSWORK OUT OF WATERING.

Violets need to stay evenly moist at all times. Self watering violet pots allow your plant to evenly & slowly drink through the unglazed lower half of the top pot. The two piece self-watering violet pot completely eliminates the guesswork for you. Just refill the bottom pot with water every 2-3 weeks.
