Peterson's Spring Showcase
Open House

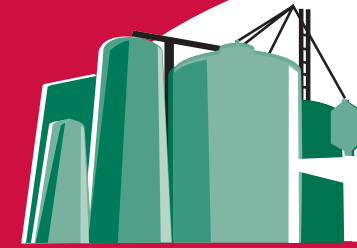

April 10th - 13th

Bulk Seeds – Check out our large variety of bulk seeds. In bulk you get fresh seed & best of all you save money. Seed potatoes, onion sets, sweet corn, beans, or peas in any amount.

Grow Organic With Livingston Seeds – 100% Organic. Pure & natural. Carefully selected open-pollinated varieties. No hybrid or genetically modified varieties. Gardening as nature intended.

WOLF-Garten Multi-Change® – Save valuable space & money with WOLF-Garten's patented multi-change® range of handles & tool heads. This unique system means you can use the same tool head for close work in beds or to reach the backs of borders with just a simple change of the handle.

Proper Grilling Form

- Trim excess fat from steaks & chops, leaving only a scant 1/4-inch of fat, which is sufficient to flavor the meat. Less fat is a virtual guarantee against flare-ups & makes cleanup easier.
- Keep a lid on it! Your Weber grill was designed to cook foods with the lid down. Keeping the lid on allows heat to circulate, cooking food evenly & without flare-ups. Every time you lift/open the lid, except when instructed to in Weber recipes, you add extra cooking time.

Give your yard & pasture a makeover with products from Peterson's Country Mill!

Starting your lawn out right cuts down on the work & problems of maintaining a high quality lawn. A thick & healthy lawn will choke out many of your weed problems. Stop in by the middle of April & let one of our expert employees help you get a game plan laid out. Our many years of agricultural experience will help guide you to a beautiful lawn & garden.

- **Lawn Seed** – Spring is an excellent time to seed your lawn. Our variety of grass seed enables us to find the best grass mix for your lawn. **Just add water! Peterson's Country Mill's seed is designed for our area.**
- **Food Plots** – Deer & wildlife food plots are becoming fun projects to do. Spring is a good time to look at getting started.
- **Peterson's Country Mill's Premium Fertilizer** – It is best to fertilize your lawn more frequently in smaller amounts, four times a year. Starting in early spring, as soon as the soil can be worked, & then again late spring, mid-summer & fall. Start your gardens out right with a fertilizer rich in potash & then again every four to six weeks.

- **Pelletized Lime** – Soil tests are very important in maintaining a healthy lawn. Pelletized lime can be used to balance your ph levels.
- **FREE Lawn Care Guide** - We have expert staff on hand everyday to answer your lawn & garden questions.

AGRICULTURE IS STILL OUR PRIMARY BUSINESS!

- **Pesticides & Herbicides** – Custom application. Small pastures to large farms.
- **Specialty Fertilizers** – Custom formulations & bagging.
- **Delivery** – Delivery & application equipment available for fertilizers.
- **Custom Application** – We're happy to work with you on custom treatment of your fields.
- **Pasture Seeds** – Alfalfa & grass mixes for horse pasture, deer plots & other forage mixes.
- **Small Grains** – Oat, barley & wheat.
- **Soil Testing** – Our expert staff works with farmers to get their soil perfect for planting. A soil test will help you plan which nutrients will make your field even healthier.
- **Rental Available** – Peterson's Country Mill has equipment available for you to rent.

Agri-Fab
Hook up with the leader

Your yard needs to breath. Help it by aerating.
