Dog Day, August 26

Pixie Hamann

Peterson's is happy once again to celebrate dogs and those dog days of summer during our annual Dog Day celebration, Saturday, August 26. With respect to this fine animal, Peterson's is sponsoring a workshop for dog-lovers. Rhonda Littlefield, a representative from Royal Canin, will help you determine which product best suits the needs of your dog. Visit with her from 10-2 p.m.

Growing food plots is the best way to produce larger, healthier animals while increasing the number of deer you see. Stop by to see Grassland Central at 10 a.m. and noon to learn which seed and products you will need to get started with deer food plots on your land. Grassland Central will also share the benefits of and the products to use when fall fertilizing and seeding at 11 a.m. and 1 p.m.

In addition, please join us for Schwan's ice cream, Gilbertson Farms roasted corn and drawings on the hour for a Peterson's bird feeder.

Heritage Day, September 9

- Seminars
- Historical Equipment Display
- Horse & Carriage Rides

Escape to a Hatteras Hammock, the leader in providing quality hammocks to make relaxation better.

Big Buck Contest

Now is the time to plant those fall food plots to get ready for fall hunting. When you bag that big buck, bring us a picture. Your name will go into a drawing for a Peterson's gift card.

Identify the Implement

What is this tool used for? Stop into the store to make your best guess. Your name will be entered into a drawing for a Peterson's gift card.

(3 feet long, blade varies between 1 and 3 inches wide)

Clue: Straw's cheaper, grass is free, Cows eat it, why don't we?

Canning and Freezing Produce

Canning Cookbooks

Sauce Master Food Strainer is ideal for making fresh sauces, purees and juices at home! It automatically separates juice pulp from seeds and skin, with an easy continuous operation. Ideal for home canning, freezing and dehydrating. Perfect for tomato sauce, paste & puree, fruit juice, butters, applesauce, jams & jellies. Includes a plunger, spiral and screen, recipes and instructions.

Home canning is not complicated. It is a simple procedure of applying heat to food in a closed jar in order to interrupt the natural decaying that would otherwise take place. It requires "processing" or "heat processing" foods according to up-to-date, tested home canning guidelines. Proper home canning includes: placing prepared food in canning jars which are then sealed with two-piece vacuum caps; heating the filled jars to the designated temperature using the correct type of canner for the food being processed; processing the filled jars for the required time as stated by an up-to-date, tested recipe in order to destroy the spoilage microorganisms and inactive enzymes; cooling jars properly, allowing the lids to vent excess air from the jars to form a vacuum seal.

Canning Essentials

Dog Day Highlights

Saturday, August 26, 10 a.m. - 2 p.m.

Royal Canin, Rhonda Littlefield
Schwan's ice cream
Deer Food Plot Planning, Grassland Central, 10 & noon
Fall Lawn Seeding & Fertilizing, Grassland Central, 11 a.m. & 1 p.m.

Put your Flower & Vegetable Garden to Bed, Ann Mathison, Master Gardener

Historical Equipment Display

Horse & Carriage Rides

Fencing Troubleshooting with Zareba
 10 a.m. - 2 p.m.

EQUILIX™

EquiLix, by SweetPro Feeds, is a non-molasses lick supplement which combines a complete vitamin, mineral and digestive aide package with buffers to help settle gastric distress.

It's a unique "One-Two" nutritional punch to meet the demands of today's performance and pleasure horses.

Dear SweetPro Feeds:

I have been using EquiLix for 3 months now and what an improvement have I seen with all 3 of my horses.

The biggest difference that I have seen is with my 25 year old quarter horse gelding, Trojan. This past winter left him with a really long coat, even past springtime. At that time, I was shopping for a product to help him shed quicker. I also had blood work pulled with my veterinarian to rule out Cushings. All of his blood work was normal.

After going through just 2 -125# tubs, his coat has shed out completely, beautiful shine and blacker than black. He seems to be getting around better than ever, his arthritis has also gotten much better - more comfortable! His eyes seem to be really bright, and he even canters up to the barn each night to be fed. He has not done that for years!

Thank you, EquiLix, for a great product!

Sincerely,
 Rhonda Littlefield
 and 3 very happy horses (Trojan, Goldie and BeeJay)
 Cambridge, MN

Just in time for Dog Day

Economical, Pollution-free Fuel

Enjoy all of the beauty and warmth of a traditional wood burning stove WITHOUT the pollution, smoke and soot emitted by conventional solid fuels like wood or coal. Amaizablaze Corn Stoves burn corn, an excellent source of heat. Corn is the only energy source that can be renewed every year. It does not pollute, and it contributes oxygen to the atmosphere while it grows. Stoves are arriving now. Purchase yours today and receive a 50# bag of shell corn free.

- Specifically cleaned for use as fuel
- Clean burning heat
- Prevents dust and allergens from collecting
- Plentiful, renewable and inexpensive

Products for a Dog and his Best Friend

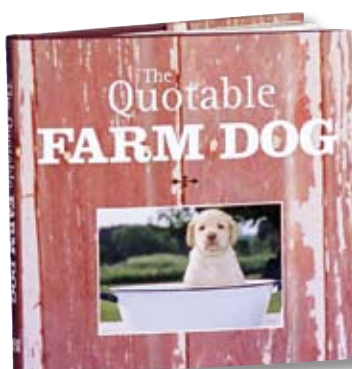

These popular dog items make great gifts for the dog lover in your life!

Easy Fall Lawn Care

Fall is the perfect time to rejuvenate your existing lawn. Fall fertilization can be summarized as a gain in benefits without the extra mowing chores that accompany spring fertilization.

Lawn seeding in the early fall increases your odds of a healthy yard. Cooler temperatures and moister conditions lead to better germination without as much sprinkling. This gives you more options for weed control in the spring as well.
